

INTERNATIONAL SEARCH REPORT

International application No.
PCT/AU2004/000578

A. CLASSIFICATION OF SUBJECT MATTER

Int. Cl. ⁷: A61B 5/0476

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

SEE ELECTRONIC DATABASES CONSULTED

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

DWPI MEDLINE: eeg electroenceph A61B 5/ cerebral brain enceph neuro infarct stroke ischaem seizure epilep disorder dysfunction decline degenerate disease defect impair necros pathology predict model expect forecast diagnose determine monitor delta

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	Rockstroh et al (2001). Magnetic source imaging of slow wave activity in psychiatric samples. Retrieved from Internet: <biomag2000.hut.fi/papers/0395.pdf>, paper dated 8 November 2001 Entire document	1-15
X	RU 2192779 C2 (HERSTVA I PEDIATRII et al) 20 November 2002 See abstract	1-15
P, X	Betterton et al (2003). Determining state of consciousness from the Intracranial Electroencephalogram (IEEG) for Seizure Prediction. Retrieved from Internet <icsl.marc.gatech.edu/papers/mic2003.pdf>, paper dated 30 July 2003 See entire document	1-15

Further documents are listed in the continuation of Box C

See patent family annex

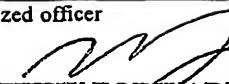

<p>* Special categories of cited documents:</p> <p>"A" document defining the general state of the art which is not considered to be of particular relevance</p> <p>"E" earlier application or patent but published on or after the international filing date</p> <p>"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)</p> <p>"O" document referring to an oral disclosure, use, exhibition or other means</p> <p>"P" document published prior to the international filing date but later than the priority date claimed</p>	<p>"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention</p> <p>"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone</p> <p>"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art</p> <p>"&" document member of the same patent family</p>

INTERNATIONAL SEARCH REPORT

Information on patent family members

International application No.

PCT/AU2004/000578

This Annex lists the known "A" publication level patent family members relating to the patent documents cited in the above-mentioned international search report. The Australian Patent Office is in no way liable for these particulars which are merely given for the purpose of information.

Patent Document Cited in Search Report		Patent Family Member
